

Section 5 – Restricted Areas

Restricted Areas means “**spaces that are essential to the operation, control, or safety of the vessel**”.

Once these areas have been identified this information along with their location should be marked onto the General Arrangement plan.

This information should also be entered into the attached tables.

Examples of Restricted Areas

- Bridge
- Radio/communications room
- Engine control room
- Cat A machinery spaces
- A/C vent and control room
- Potable water tanks, pump, manifold controls
- Security, surveillance, control room
- Areas containing dangerous goods, hazardous substances, unaccompanied baggage
- Spaces containing cargo pumps and their controls
- Ships stores spaces
- Crew and personnel accommodation
- Safety and emergency equipment storage
- Electrical control/equipment room
- Lighting control room
- Steering gear room
- Cargo storage areas
- External cargo storage areas (containers etc)

Restricted Areas could include but are not limited to the examples above. Restricted areas will vary from ship to ship.

ISPS Code – Practical Pack

Location	Deck	Level 1	Level 2	Level 3	Remarks
<i>Bridge</i> Locked Unlocked Keys Held By Security Control / Check					
<i>Radio/communications room</i> Locked Unlocked Keys Held By Security Control / Check					
<i>Engine control room</i> Locked Unlocked Keys Held By Security Control / Check					
<i>Cat A machinery spaces</i> Locked Unlocked Keys Held By Security Control / Check					

ISPS Code – Practical Pack
